## Ground floor plan of the house

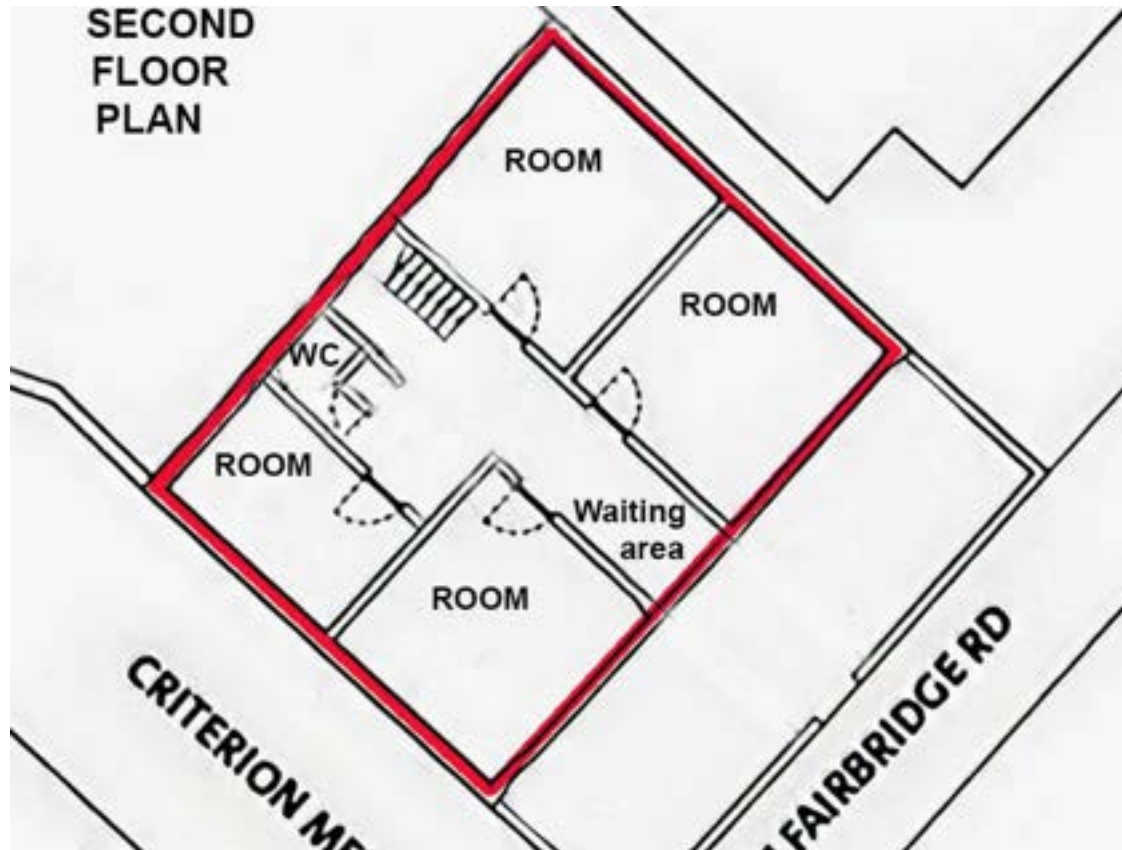

The ground floor encompasses the AGIP office, kitchen (for anyone to make a drink), library, seminar room (where all the clinical group teaching takes place) and the group room. There is also a consulting room.

## First floor of the house

There are 5 consulting rooms and 3 toilets.

## Second floor of the house

On the second level the 4 consulting rooms are smaller as they have been built into the eaves and have dormer windows.

There is a small waiting area and a toilet on this floor.

## **Before we go inside a quick look at the garden**

**A quiet, private place to sit between seminars, have a coffee  
or to eat your lunch.**

# Teaching rooms

***Seminar room*** - set up for a meeting – for the clinical course teaching the tables are removed and the chairs arranged in a circle

***Group room*** - Used to teach the Foundation course. The chairs are stacked just out of the picture on the left

The picture only shows about half the depth of the library. Books for the training courses are in the bookcase on the left

## The library

**Open access shelves. The desk in the corner has a desktop with internet connection. Wifi is strongest in the library.**

**This tends to be a meeting, eating and relaxing space as well as a library.**
